SUMMARY

Computer Science student and full-stack web developer. Built and maintained CIAP WEB, a Next.js, React, and Supabase case-management system used by 16 members of a multidisciplinary care unit at the Pará Military Police, and developed a cross-platform Tauri and React application. Served as the senior technical reference for a four-person team, mentored newer developers, and kept confidential case records accurate as the unit's demands changed.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, PHP, Java, Python, HTML5, CSS3

Frameworks & libraries: React, Next.js, RippleJS, Tauri 2.0, Material UI, shadcn/ui, PixiJS

Backend & data: Node.js, REST API design, Supabase (Postgres, auth, real-time), Zod, Stripe webhooks, OpenAI API

Tooling: Lexical, Git, GitHub, GitHub Actions

Coursework: Remix, React Native, Expo, UML modeling, object-oriented design

Other: accessibility (ARIA), Photoshop, hardware & mobile repair, cloud fundamentals

Languages spoken: Portuguese (native), English (fluent; Business English training)

EXPERIENCE

Web Developer, CIAP WEB (Civil Volunteer)

Feb 2025 to Sep 2025

Pará Military Police (PMPA) · Belém, PA, Brazil

- Built and maintained CIAP WEB, a Next.js and React case-management system used by 16 CIAP members (6 volunteers and 10 psychology and social-assistance officers) to support PMPA personnel.
- Designed the REST endpoints, modeled data and authentication with Supabase, validated forms and API payloads using Zod schemas, and built the user interface with Material UI.
- Served as the senior technical reference for a four-person development team, mentoring newer members on implementation and troubleshooting.
- Organized sensitive case information for a multidisciplinary care team and kept the records accurate and confidential as demands changed.

PROJECTS

AI Roleplay App: Web, Mobile & Desktop

2025 to present

Tauri, React, RippleJS, Supabase, Zod, Lexical, Stripe, OpenAI, PixiJS

- Built a cross-platform AI roleplay app from one codebase for web, mobile, and desktop using Tauri, with authentication, storage, and real-time data on Supabase.
- Integrated an OpenAI dialogue engine and Stripe webhook billing, and used Zod to validate model output and webhook payloads. Built the rich-text editor on Lexical.
- Rendered the branching conversation history as an interactive tree with PixiJS.
- Rewrote the component layer to migrate the interface from React with shadcn/ui to RippleJS.

Bilingual Resume Website

2026

HTML, CSS, GitHub Pages

- Built the bilingual site with semantic markup, ARIA, and a print stylesheet that produces A4 PDFs, and deployed it to GitHub Pages through a GitHub Actions CI/CD pipeline.

EDUCATION

B.Sc. in Computer Science (in progress)

Mar 2023 to expected 2028

Faculdade Ideal Wyden · Belém, PA, Brazil

- Relevant coursework: object-oriented programming in Java, UML systems modeling, Python, and web development in HTML5, CSS, JavaScript, and PHP.

AWARDS & CERTIFICATIONS

- **Finalist, V Prêmio Inova Servidor 2025** (Processes), CIAP WEB team · Escola de Governança Pública do Estado do Pará (EGPA).
- **Internet Programming Certification**, Faculdade Ideal Wyden, Jun 2024 (240 h): HTML5, CSS, JavaScript, PHP, Python.
- **Information Systems Programming Certification**, Faculdade Ideal Wyden, Dec 2025 (240 h): Java (OOP), UML modeling.
- **Professional IT Training**, Cedaspy, 2020 (480 h): web development, graphic design, Photoshop, hardware maintenance, cloud computing.
- **Additional training:** Business English, Quality Plus (2019); mobile & tablet repair to board level, Tellemak (45 h).
